DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 and 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Ausiello. Fig. 2 of Ausiello discloses an engine cogeneration system in which a power generator 4 is driven a plurality of engines 2 to supply electric power, and at the same time, exhaust heat from said plurality of engines 2 is recovered to supply the heat to a heat load 16, wherein at least one of a number of engine to be driven and a combustion mode of said engine is controlled 15 to meet heat load and power load to be demanded.

Allowable Subject Matter

3. Claims 8 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
